Purpose:

ACH Child and Family Services' (ACH) philosophy of care is centered on producing quality outcomes for children and families. Its approach to achieving quality focuses on recruiting and training high quality staff, implementing evidence-based or evidence-informed treatment strategies whenever possible, providing thorough information both through written reports and testimony for court, and developing strong collaborations and partnerships with other providers, to best leverage resources. This approach has successfully led to the development of a strong continuum of services for children and families, and excellent partnership relationships with nearly every organization serving children and families in our community. With the mindset of 'the right services – at the right time' ACH prides itself on providing innovative leadership for children suffering abuse and neglect, and on effective and efficient asset utilization across our mature continuum of care.

Policy:

ACH Child and Family Services offers a continuum of care with service modalities and interventions that are individualized to each client based on the service plan or program service.

Procedure:

ACH's service continuum is outcome-focused, data-informed, and fiscally sound. ACH has designed the network development process to improve provider availability in a manner that is responsive to the needs and demographics found in the Fort Worth and surrounding rural communities (Tarrant, Parker, Johnson, Hood, Palo Pinto, Erath and Somervell counties). The Network delivers the most appropriate array of services for meeting the needs of its clients.

The Single Source Continuum Contact (SSCC) is managed by a Division of ACH called "Our Community. Our Kids" (OCOK). OCOK manages a Provider Network and provides direct Case Management Services through its centralized structure that provides for the integration and coordination of services of the participating services providers, community partners and court officials. OCOK is a lead agency that has a network of subcontractors and is legally authorized to operate as the lead agency for this project. In alignment with ACH's operational philosophy of community engagement and community care, the SSCC organizational design leverages the strengths of community providers to best meet the needs of children, youth and families in our catchment area. Operating under ACH's present governance and organizational structure, the network administration body will build upon the significant relationships ACH has established in its 102-year history with community leaders and partnering organizations.

In addition, OCOK provides direct Case Management Services to children and families that are referred to us and are in conservatorship with the Texas Department of Family and Protective Services. OCOK ensures the quality delivery of all case management requirements within the SSCC contract.

ACH's present continuum of care offers a variety of placements and innovative service offerings for children and youth in our area as well as quality parent services for families, parents and relatives. ACH recognizes individual needs of each child and family and seeks to always 'provide the right services at the right time'. In support of achievement of the established DFPS service objectives - ACH is prepared to evaluate current service offerings and expand capacity as necessary.

OCOK is committed to supporting the development of a network of providers for both children and families who have strategies for implementation of a variety of best, promising and evidence-based service practices. The process of a Request For Information for potential involvement in special projects addressing identified gaps in services in the network is one of the mechanisms used by OCOK to encourage the development of such practices within the network.

OCOK network participation ensures full access to needed services and supports within a system of care for clients referred. OCOK recruits and/or contracts with members and community partners based on anticipated and identified needs of the service population, including needs related to geographic location and cultural and linguistic diversity.

ACH demonstrates through the OCOK provider network a commitment to providing clients with access to provider organizations that best meet their needs and preferences, including providers who are responsive to the diverse cultural needs of clients and are able to connect clients with natural supports within the community as needed.

A. OCOK's over-all purpose is to protect children and youth and to act in their best interest. We focus on children, youth, and their families and seek active involvement of the children and youth's family members to solve problems that lead to abuse or neglect. The objectives outlined by CPS and agreed to by OCOK are to:

2.02 DFPS Conservatorship and Relationship with Providers			
Domain	Jurisdiction		
Effective	January 01, 2014	Revision Dates	1-12-20
Documents			
Reference	SSCC Master Contract		

Procedure:

I. Conservatorship and DFPS Relationship with OCOK and Providers

DFPS had identified the need to provide paid foster care and purchased services that support safety, permanency, and well-being of children in its legal conservatorship who reside in paid foster care. DFPS views a performance-based service delivery model, provided through a Single Source Continuum Contractor (ACH-OCOK), as the approach that can most effectively meet this need in a manner that achieves better outcomes for children in its conservatorship and in paid foster care.

OCOK will be responsible for ensuring that services are provided to children and their families who are in conservatorship in the contracted service area and who are referred to the SSCC by DFPS. OCOK will also be responsible for delivery of purchased services, with necessary service coordination, to the families and/or any other individual for entity that is significant to the achievement of safety, permanency, and well-being of children in paid foster care.

In order for OCOK to ensure services for full conservatorship in the contracted service area, implementation of OCOK as the SSCC will occur in 3 stages after an initial start-up period:

- A. Start-Up Period; OCOK builds the infrastructure and competencies necessary to provide full continuum of paid foster care and purchased services (in place of DFPS Contracting)
- B. Stage I (Begins the day the first referral for paid foster care and/or purchased services for a child/youth is made to the SSCC following the Start-Up Period).
 1. For all children entering paid foster care and referred by DFPS, OCOK will provide the full continuum of paid foster care in a manner that eliminates (to the degree possible and based on the child's individual needs) the necessity for change of placement as service needs evolve to ensure stability and reduce the number of moves a child or youth must make while in care and that provides necessary, individualized services within the child's own community and placement.
 2. OCOK will accept DFPS referrals for children from the catchment area placed in paid foster care prior to implementation of redesign to the SSCC in the event that they require a change of placement. There will be no additional moves solely for the purpose of moving the child into the SSCC's continuum of paid foster care and purchased services.
 3. OCOK will be reimbursed a single blended foster care rate for each child served through this contract (excluding youth who are residing in a Supervised Independent Living (SIL) program and children/youth who the Department has approved for the Exceptional Foster Care Rate) for each day of service.
 4. OCOK will provide Preparation for Adult Living (PAL) Life Skills training, Purchased Adoption Services, and Foster Care Day Care in Stage I for children and youth who are served by the SSCC and meet appropriate criteria for these services.

- C. Stage II (Begins the day the first referral for purchased service). In addition to the procedures outlined in Stage I, OCOK will utilize allocated funds referred to as purchase of service funds, to provide services for families and other individuals that support the achievement of safety, permanency, and well-being for children in DFPS conservatorship and will develop and provide for case management services for all family members (parents and identified relatives or kin) who have children in conservatorship and who are referred to OCOK. OCOK will provide all court related duties for the resolution of children's court cases.
- D. Stage III
 - 1. OCOK will be responsible for providing the services outlined in Stages I and II.
 - 2. OCOK will be hold financially accountable through the use of incentives and remedies for the timely achievement of permanency for served children.
 - 3. During Stages I and II OCOK will develop an array of services for children.
 - 4. In Stage II OCOK will develop an array of services for parents/kin as well as a direct workforce to provide all case management services.
 - 5. In the first year of Stage III, OCOK will have the opportunity to gauge effectiveness of services related to the timeliness to permanency.

Every three years, OCOK conducts a Network-wide, long-term, strategic planning process that:

- b. assesses its strengths and weaknesses;
- c. establishes goals and objectives that flow from its mission and mandated responsibilities;

- d. identifies appropriate strategies for meeting identified goals, including consideration of the Network's continued sustainability and possible need to redirect, eliminate, or expand service to respond to changing community demographics and needs;

- f. addresses changes in the funding environment;
- g. addresses changes in the regulatory environment; and
- h. includes the input of service recipients and their families.

Once every long-term planning cycle, the Network creates a demographic profile of the persons and families it serves and compares it to the demographics of its defined service population.

The Network annually develops a short-term plan that:

ACH Child and Family Services commits resources to support the Performance and Quality Improvement (PQI) program to ensure that data is collected, analyzed and utilized in supporting strategic priorities and goals, program outcome measurement, quality improvement processes, service delivery excellence, and positive results for clients served. The PQI process encourages broad-based participation from employees and stakeholders in the responsibility to utilize data and feedback to maintain vital programs that meet a need in the community and that deliver quality outcomes for those that participate in services.

Procedure:

The Continuous Quality Improvement (CQI) process will allow OCOK management to hold ourselves, and those we partner with, accountable for financial, quality, and outcome measures that promote child safety, well-being, and permanency.

Quality Improvement and Contracts (QI&C) staff will engage in a continuous cycle of monitoring that is repeated until performance is at the highest achievable level and stability is maintained. This cycle is DMAIC:

- *Define:* As the first step of the cycle, OCOK defines performance measures and targets. These may be defined by DFPS or established by OCOK Executive Management Team and the Board of Directors.
- *Measure:* Data is gathered from various reports, data queries, survey results, incident reports, and case reviews. The data that is obtained is both quantitative and qualitative and focuses on indicators related to safety, service delivery, effectiveness, and timeliness.
 - Depending on risk factor analysis, an annual contract-monitoring schedule for each Network Provider will be determined by the QI & Contracts Department
 - A comprehensive review will be completed including, but not limited to,
 - an onsite review of records
 - interviews
 - direct observations
 - Findings from the review are communicated to the Provider and used to guide and inform of services
- *Analyze:* Analysis includes identifying trends, and opportunities for improvement, isolating data anomalies and process issues, identifying root causes, and reviewing the analysis.
 - A comprehensive report will be completed and provided to the Network Provider
- *Improve:* Providers, partner agencies, and other stakeholders identify Countermeasures for improvement, which may include:

- Setting targets and identifying milestones
- Establishing deadlines and implementing corrective actions when needed
- Sharing best practices and celebrating successes
- Acknowledging excellence from management down to front line staff
- Providing training and technical assistance
- *Control:* The final step in the DMAIC cycle is Control. This is the phase of monitoring and maintaining stability of performance. Further process improvements may occur based upon changes in performance or in response to changes within the provider system.

Through the CQI process, the QI & Contacts staff will work closely with Network Providers to ensure accountability and provide the necessary oversight and training to ensure that the subcontractor meets the conditions of their contract.

- D. Providers must meet clear levels of contractual performance or immediately execute plans to meet performance expectations.
- E. This process will continue until the quality of the deliverables and processes meet the defined quality standards.

1. Network Providers will be held accountable through performance-based agreements, which detail the scope, requirements and parameters of the Provider Services Agreement.
 2. Additionally, because OCOK will encourage Network Providers to be COA accredited and support them in their efforts to achieve this milestone, each Provider will be required to develop and implement internal quality management processes and participate in OCOK' monitoring processes.
 3. Through the CQI process, OCOK will work closely with Network Providers to ensure accountability and provide the necessary oversight and training to ensure that the Providers meet the conditions of their Provider Services Agreement.
 4. Based Review of Contracts, Real-Time Review of Performance Data, and Accountability to Performance and Outcome Requirements.
 5. Network Providers agree to follow quality improvement expectations for the Network as a system.

- E. As needed, the Quality Improvement and Contracts staff will assist Network Providers in the development of Quality Improvement Plans that promotes the ongoing evaluation of the Provider's activities.

 - 2. The plan sets forth the purpose and scope of quality improvement activities and includes strategies for planning, monitoring, reporting and resolution of issues.

Deliverable Monitoring Process Overview

- A. Quality Improvement and Contracts staff will participate in OCOK team meetings to review performance measures, identify and discuss programmatic issues, and identify any trend for improvement.
- B. Quality Improvement and Contracts staff will coordinate the quarterly management report that tracks compliance with contract performance measures.
 - 1. Reports will be distributed to OCOK staff, Providers, appropriate committee members and the community via the Quality Committee and/or the website.
 - 2. When data is received from Providers, or through automated systems, OCOK will review and analyze the data to determine its accuracy and validity. If errors are found, OCOK will work with the Provider to determine what is needed to correct the data.
 - 3. Providers will be required to provide corrective action plans if errors are consistently found.
 - 4. Satisfaction surveys will be regularly provided to clients, employees, Providers and foster parents to determine their experiences with OCOK and the Network Providers.
 - 5. Results from the surveys are used to improve service delivery, identify service gaps, and improve outcomes for dependent children and their families.
- C. Contract performance monitoring is conducted in conjunction with the Quality Improvement and Contracts team. The monitoring will include file reviews, and interviews with Providers, foster parents, and personnel staff as needed to determine the quality and effectiveness of the services being offered.

Placement Stability and Permanency

- A. Quality Improvement and Contracts staff will track all complaints and serious incident reports, analyzing them for trends and will provide an annual report on the status.
- B. If corrective action plans are required, the Provider responsible will provide a plan within 30 days of the request and will provide regular updates as needed to correct the issue.
- C. The Quality Improvement and Contracts staff will maintain and evaluate a centralized issue system designed to capture issues raised during reviews.
- D. After assessment and evaluation of the issues raised, the Quality Improvement and Contracts staff will assure that the outcomes are published and resolutions to the issues are implemented.

Effective	July 01, 2014	Revision Dates	1-2018, 5-30-19, 12-30-19
Documents	ACH Child and Family Services Statement of Principles on Conflict of Interest

Purpose:

There may be times when OCOK, DFPS, Network Providers, clients and/or other Stakeholders may not agree on a case related decision or what should happen with a child and/or family.

Policy:

ACH Child and Family Services maintains a formal process in which clients can express and resolve grievances.

Procedure:

The purpose of the dispute, complaint, grievance and conflict of interest procedure is to provide a process for clients, employees and/or other stakeholders an opportunity to be heard and to work together toward finding a solution to their concern. The complaint process is a tool for that purpose and also serves as a tool for performance/program improvement.

I. Case Related Dispute Resolution Process between OCOK and Network Providers

Step 1: OCOK staff and the Provider staff (who are closest to the issue in dispute) and both OCOK Supervisor and the Provider Supervisor will work together to resolve case specific issues informally. This will be done through an objective, solution-driven discussion or meeting. If a mutually agreeable solution is not achieved in three (3) business days, the Supervisor will notify the other Supervisor that they plan to involve their chain of command. The disputed issue will be elevated to the OCOK Department Director and the Network Provider Administrator in writing for possible resolution.

Step 2: If the dispute is not satisfactorily resolved in Step 1, it will be elevated to the OCOK Chief Operating Officer (COO) and the Executive Director/Administrator of the Network Provider agency in writing. Supporting documentation will be sent by email to the OCOK COO and the Network Provider Executive Director/Administrator with the subject line of "Dispute Resolution." As a part of the review, the philosophy and goals of foster care redesign will be reviewed and used as a guideline for the ultimate resolution. The Network Provider must ensure continuity of services, as defined by the OCOK Contract and the Network Provider manual for the child or family involved while seeking to resolve the case-specific dispute. The issue will be resolved at this level and a final decision will be distributed back to the requesting staff by email with supporting points for the decision.

Some examples of issues that a Provider may dispute include but are not limited to the following:

- a. Denial or termination of the clinical privileges, including of individual service providers within Provider organizations;
- b. decisions not to contract with Providers;

- c. decisions to abrogate contracts with Providers;
- d. the Network's referral practices;
- e. level of care determinations (Refer to 6.19 Utilization Management Procedure); and
- f. payment (Refer to 7.09 Payment Dispute Resolution Process).

II. Case Related Dispute Resolution Process between OCOK and DFPS:

Step 1: OCOK, DFPS/CPS workers and supervisors, (and the Network Provider, if applicable) who are closest to the issue in dispute will work together to resolve case specific issues informally. This will be done through an objective, solution-driven discussion or meeting. If a mutually agreeable solution is not achieved in 3 business days, the individual will notify the other individual that they plan to involve their chain of command. The disputed issue will be elevated to the OCOK Director, DFPS/CPS Program Director and/or Program Administrator for possible resolution. The disputed issues will be elevated in writing.

Step 2: If the dispute is not satisfactorily resolved in Step 1, it will be elevated to a knowledgeable neutral DFPS/CPS staff member such as the (Community Based Care Administrator who understands the philosophy and goals of foster care redesign and is not a direct supervisor of the individual in the appeal). The escalating party will send an email with supporting documentation to the Community Based Care Administrator and the OCOK Chief Operating Officer (COO) with the subject line of "Dispute Resolution."

Once a dispute is escalated in Step 2, the CBC Administrator will provide a written decision to the appeal within five (5) business days. The written decision will be emailed to the OCOK COO with the subject line of "Dispute Resolution Appeal Decision." If the OCOK COO chooses, they will have three (3) business days from receipt of the notification from the CBC Administrator to appeal the decision to the DFPS/CPS Regional Director. The DFPS/CPS Regional Director will have five (5) business days to make a decision on the COO's appeal. If the COO chooses not to appeal, they will notify the CBC Administrator.

The CBC Administrator will distribute the decision to the appropriate staff and management. If the OCOK COO appeals the decision of the CBC Administrator to the DFPS/CPS Regional Director, the DFPS/CPS Regional Director will distribute their decision to the appropriate staff and management.

III. Complaints and Concerns

OCOK employs a consumer affairs approach to complaints and concerns. Any consumer/client, Network Provider, DFPS employee, or community stakeholder can lodge a complaint or concern directly with OCOK by sending an email to consumeraffairs@oc-ok.org. The OCOK Director of Community Relations will receive those emails and will ensure that the complaint is addressed in a timely manner.

A complaint/concerns monthly report will be generated and sent to the OCOK Chief Operating Officer and to the DFPS SSCC Contract Manager.

Our Community Our Kids Office of Consumer Affairs will work to help solve problems, let parties understand their rights, answer questions and help with resources. The requester may submit his or her request by:

- Fax: 817-732-9332
- Email: consumeraffairs@oc-ok.org

- Standard Mail:
Office of Consumer Affairs
Our Community Our Kids
7700 AWG Way
Fort Worth, Texas 76140

The request for an Office of Consumer Affairs review should include the name, telephone number, and mailing address of the requester, as well as the case number (if available) and date of birth of designated victims. Requests may also include other pertinent records, if those records should be considered.

Only at the discretion of Our Community Our Kids Chief Operating Officer or designee is new information considered.

Office of Consumer Affairs (OCA) Review Process:

Upon receiving a request for Office of Consumer Affairs review, the Office of Consumer Affairs Specialist will obtain and review the documentation from the case, research and review information with all parties. The OCA Specialist will submit the review and recommended finding to Our Community Our Kids, Director of Community Relations for consideration.

The requestor will be notified in writing of the final disposition of their case.

Process for which children, youth and families may elevate concerns about the provision and/or quality of services provided?

If the Office of Consumer Affairs is unable to satisfactorily resolve the complaint, the Director of Community Relations will forward the review along with supporting documentation to Our Community Our Kids, Chief Operating Officer. Should Our Community Our Kids, Chief Operating Officer be unable to satisfactorily resolve the complaint, the case along with supporting documentation will be forwarded to the Chief Executive Officer of ACH Child and Family Services for final determination.

If this process is exhausted and the constituent does not find their case was resolved appropriately, children and youth under the age of 18 may contact the HHS Foster Care Ombudsman at 844-286-0769, or adults may contact the DFPS Office of Consumer Relations at 800-720-7777. This should be the final step in the appeals process and only be used when the constituent deems it necessary.

IV. Conflict of Interest

A Conflict of Interest is a situation in which a person has a private or personal interest sufficient to appear to influence the objective exercise of his or her duties in the best interest of ACH Child and Family Services, our mission and our clients as a Board member, advisory committee member, paid consultant, employee or subcontractor.

Board members, advisory committee members, paid consultants, employees, community partners and subcontractors are required to fully disclose any potential conflict of interest.

For procedures involving Board members, advisory committee members and paid consultants please refer to the ACH Child and Family Services Conflict of Interest Policy and Procedures.

For OCOK employees, all employees must be aware of Policy and Procedures and are required to fully disclose any potential conflicts of interest to their immediate supervisor as well as HR to be investigated and bring resolution to the actual, potential or perceived conflict. The employee will be advised of the resolution accordingly.

For any subcontractors (Network Providers) or community partners, should a potential, actual or perceived conflict of interest arise, the party will notify OCOK immediately. Once OCOK is made aware of the conflict, it will be reported to the OCOK Chief Operating Officer to be further investigated and bring resolution to the actual, potential or perceived conflict. The party will be notified of the resolution by the OCOK Chief Operating Officer or designee.

Potential Contracting Conflicts of Interest

In Stage I, the SSCC is required to provide placement for all children entering out-of-home care. This requires the SSCC to contract with a wide variety of providers for different types and intensity of placement services. The primary interest for these services is to place children in settings that best satisfy the Stage I contract outcomes.

In Stage II, the SSCC is authorized to spend an annually pre-determined amount of funding, to purchase services for families. The primary interests for these services is 1) to support the family's ability to have their child return to their home and 2) to comply with court-ordered services. The types of services purchased vary significantly, and will include drug testing, mental health services, support services, skills training, family support services, or a variety of other services to support families.

Potential conflicts involved in purchasing services include

- *ACH staff member or Board member financially profiting from a purchased service:* Should an ACH staff member or Board be the owner of a service purchased by OCOK, this person could financially benefit from this procurement. While it is not wrong for an agency or business to make a profit, the appearance of favoritism or unfair contracting exists.
- *Programs operated by ACH are monitored less intensively than those provided by outside vendors:* Because an SSCC can operate its own programs rather than contract for all services, a conflict could involve less intensive monitoring by OCOK of programs offered by ACH.

Other potential conflict

- *OCOK employee wanting to become a foster or adoptive parent.* An OCOK employee or spouse of an employee could decide to become a foster or adoptive parent. Conflicts could arise due to the staff having access to confidential information regarding the status of their home or the status of the child's case. Conflicts could also arise with dual relationships with co-workers.

Tracking and Managing Potential Contracting Conflicts of Interest

- *Purchasing services from an ACH employee or Board member:*

OCOK has not and does not intend to purchase services from any entity that is owned by an ACH employee or Board member. OCOK would not pursue a contract of this type unless the service desired was not available through any other quality vendor. Should a contract of this type ever be considered, OCOK has the following purchasing procedures:

- Contracts will be procured through the defined OCOK purchasing process.

- Situations regarding a potential conflict will include clear documentation of the conflict and elevated to ACH's CEO to determine if a contract will be pursued.
- If OCOK chooses to pursue a contract of this type, a conflict of interest plan will be created. The plan must then be approved by the ACH CEO. DFPS would be notified of the conflict by OCOK prior to any services being utilized.
- DFPS would be notified of the conflict by OCOK prior to any services being utilized.

- *Monitoring services delivered by ACH:*

Current procedures are in place for OCOK to monitor ACH services consistently with all other services procured by OCOK. This process has worked well since 2014 and has been overseen by DFPS since the beginning of Stage 1.

- *Other potential conflicts resulting from contracting for services:*

OCOK procedures prohibit OCOK staff from fostering or adopting Region 3b youth unless the youth is a kinship placement. For staff involved in a kinship placement, a specific conflict of interest plan will be developed for that individual staff member and the plan approved by the OCOK COO.

ACH and OCOK policies also require all staff to follow the professional ethics of their individual professions. These ethics statements all address personal conflicts of interest and the importance of avoiding or mitigating them.

Resolving Potential Contracting Conflicts of Interest for OCOK

The performance of the SSCC is regularly monitored by DFPS and several performance measures are tracked by independent, third party evaluators. This process provides the necessary checks and balances for DFPS to identify and oversee potential conflicts of interest for contracting if they arise.

Potential Case Management Conflicts of Interest

Reunification decisions: While a child is in a placement (paid or kinship), the primary interest is for the SSCC to facilitate each child exiting foster care being placed in a safe and permanent family setting. In Stage II, the SSCC is paid for case management services while a child's case is open. In Stage III, plans are to pay the SSCC a fixed total amount for all children entering care to provide case management services for the duration of the child's case.

- Financial Incentives in Stage II. Because the SSCC is paid for case management services while a child is in care, there could be a secondary interest for the SSCC to keep children in care longer.
- Financial Incentives in Stage III. Because plans for Stage III are to pay a fixed amount to provide case management services for every child entering care, there could be a secondary interest for the SSCC to exit children from care quickly.

- *Preference for biological and kinship placements:* In considering reunification options, preference should be given to reunifying a child with biological, or kinship family members. In some cases, this decision may involve more risk than recommending termination of parental rights and pursuing non-relative adoption. It is important that the SSCC give priority to reunification with biological or kinship family members as this is historically in the child's best interests. A potential conflict could arise if an SSCC makes decisions to protect itself from risk, rather than to focus on reunification with biological or kinship family. Interestingly, this conflict also exists in the legacy system. Reunification with biological families could involve a greater likelihood of negative consequences if a child is hurt after reunification. This is a risk that DFPS currently manages and OCOK will look to work closely with DFPS to continue a focus on reunification with family.

Other potential conflicts resulting from case management

- *OCOK employee becomes part of a DFPS investigation or open case.* If the child of an OCOK employee were to become part of an open case involving kinship placement or out-of-home placement, conflicts would arise given the employee's access to confidential information about the child, the case, or the family members. Access to this information could put an employee in the position of being able to use this information to unfairly influence decisions about the case including placement decisions, reunification decisions or decisions about the involvement of other family members.
- *Family or extended family of an OCOK employee has a CPS case opened.* If a family or extended family member of an OCOK employee were to become part of an open case involving kinship placement or out-of-home placement, conflicts would arise given the employee's access to confidential information about the child, the case, or the family members.
- *Friend or other person with whom an OCOK employee has a relationship with outside of work has a CPS case opened.* If a person known to an OCOK employee becomes involved with the DFPS system, the prior relationship could impair good decision-making about the case if the employee is involved.

Tracking and Managing Potential Case Management Conflicts of Interest

Reunification decisions: With the primary interest of each child exiting foster care being placed in a safe and stable permanent family setting, with a preference for biological or kinship family placement, there are three variables that can be monitored to effectively track that the SSCC acts to best support the primary interest: "Case Duration", "Re-Entry into foster care", and "Percentage of Biological/Kinship Reunifications". These variables apply to both Stage II and Stage III in tracking of potential conflicts of interest.

- *Case Duration:* Case-duration is the length of time a case is open. The longer a case is open, the slower a child achieves permanency. The primary interest is to make the Case Duration as short as possible, while minimizing the number of children who are re-entering care.
- *Re-Entry into Foster Care:* While minimizing Case Duration is important, it is also important that children be reunified to safe and stable homes. A "re-entry" occurs when a child returns to foster care at a later period, after the original case is closed.

- *Percentage of Biological/Kinship Reunifications:* Knowing what percentage of total reunifications occur with biological/kinship family tracks SSCC efforts to engage and support this type of reunification as compared to non-relative adoptions.

Tracking the OCOK's focus on the primary interest involves tracking each of these variables consistently. Benchmarking Case Duration and the rate of children Re-Entering Foster Care after being reunified are partial indications of OCOK maintaining focus on the primary interest. For example, in Stage II, if Case Durations are significantly longer for OCOK as compared to the Legacy System, or as compared to other SSCC's, a conflict of interest could be indicated and can be further explored. In Stage III, if Case Durations are short but Re-Entry into Foster Care rates are significantly higher than either the Legacy System or other SSCC's, a potential conflict of interest could be explored.

In the same fashion, benchmarking the percentage of Reunifications that occur with biological/kinship families in Region 3b, with the Legacy System and with other SSCC's, provides insight into OCOK's emphasis on helping children return to their own families.

It is important to note that many issues could impact these variables that do not involve a conflict of interest. For example, court decisions to reunify children to more risky settings, lack of community services to support reunification, and youth entering care with more severe behavioral or mental health needs, are all factors that could each impact these variables negatively. In addition, strong efforts to help reunify more children with their families, will likely result in more reunifications, but will also result in more re-entry's because more children are living with their families. Tracking the information and then conducting more detailed case analysis if concerning trends are indicated, will help OCOK and DFPS understand factors influencing the trends, and whether or not a secondary interest is receiving higher priority than the primary interest for the children in Region 3b.

Other potential conflicts resulting from case management

OCOK has created procedures to address these potential conflicts. These procedures will direct the following actions:

- OCOK staff experiencing a conflict involving personal involvement, family or relative involvement, or a friend or outside relationship involvement with DFPS must disclose this situation to either their supervisor or ACH's Human Resources Department within two (2) business days of the conflict being known by the OCOK staff member.
- For staff who become personally involved or who have a relative or person with whom they have a previous relationship become involved with DFPS, a specific conflict of interest plan will be developed for that individual staff by the CEO of OCOK. The plan will specifically identify how potential conflicts involving the information and decisions regarding the case will be managed. The conflict will be reported to DFPS and the conflict of interest plan will be submitted to the Region 3b DFPS CBC oversight supervisor for approval.

Resolving Potential Case Management Conflicts of Interest

DFPS will regularly monitor OCOK performance. Monitoring by DFPS will track length of stay in foster care and re-entry rates. DFPS monitoring will include individual case analysis to determine if cases are being worked thoroughly by OCOK and if individual case permanency recommendations

are supported by accompanying case evidence. DFPS will periodically report monitoring results to OCOK and will notify OCOK if any concerns arise from the results. The Conflict Resolution process defined in the contract will be used if OCOK and DFPS disagree on the corrective action needed for a specific situation.

Conflicts of interests involving length of placement or biological family involvement will be indicated in outcome data. Should outcome data indicate that a conflict of interest could be influencing the SSCC to give preference to a secondary interest, a more detailed review of cases and case decisions would be conducted by DFPS. The purpose of this more detailed review would be to clarify if the outcome trends are a result of other factors, (examples cited previously) or if a conflict of interest, as indicated by identifying specific cases where the secondary interest was given preference, is influencing SSCC decisions.

The Network Provider is responsible for sending RCCL documentation to OCOK; to include but not limited to, sampling visits forms, allegations and investigations letters, deficiencies and closure letters for all facilities available to OCOK within 3 business days of receipt of the information. OCOK will follow up with the Provider as needed on specific incidents, allegations or investigations in order to resolve the issue.

- H. OCOK will identify trends by Providers and the Network as a whole. If a trend is identified in a specific area OCOK will assist with the formation of a Workgroup to address improvement in that specific area. This Workgroup may be Provider-focus or Network-focus.

The committee is comprised of the OCOK President, Chief Operating Officer, Director of Quality and Contracts and the Director of Care Management but also consults with other members of the OCOK team as needed. An agency may be placed on Safety Committee review for issues such as but not limited to the following:
- the agency's viability is potentially at risk;
 - children and/or families are potentially at risk; and
 - the agency or one or more of their homes have serious or on-going licensing or contracting issues.

The committee members review the known information and develop a plan for how to address the issues. Example actions taken through this review may include but are not limited to:

- determining that the agency has resolved the issue and no action is needed;
- gathering more data and reviewing at the next meeting;
- meeting with the agency leadership;
- increased oversight;

Procedure:

Pursuant to the Fifth Circuit Court of Appeals in *M.D. et al. v. Abbott* related to Continuous 24-hour Awake Supervision OCOK adopts the following requirement:

All Providers serving more than six children in their facility must provide Continuous 24-hour Awake Supervision. Provider's supervision policies and procedures must consider and address the ages, needs, living arrangements, and levels of service of the children and youth placed at a facility in addition to the physical environment and layout of the facility.

The Provider must notify OCOK and DFPS when this condition is not met in the specified format. This report will be submitted within 24 hours of the occurrence and will include the Provider's actions.

OCOK Network Providers are required the following:

1. All licensed residential childcare providers who have more than 6 children in their facilities must submit policies and procedures that meet the updated Continuous 24-hour Awake Supervision provisions.
2. All DFPS legacy residential service providers will submit a copy of the certification of compliance received from DFPS.
3. All residential service providers must report, to OCOK via Serious Incident Report process to seriousincidents@oc-ok.org and to DFPS through the process established by DFPS to the following email DFPSRESIDENT@dfps.state.tx.us, any noncompliance within 24 hours of the occurrence.

No children or youth in the conservatorship of DFPS may be placed in licensed residential childcare placements with more than 6 children, inclusive of foster, biological, and adoptive children, that lack continuous 24-hour awake-night supervision, with the exception of unlicensed placements, such as unlicensed or unverified kinship placements.

Continuous 24-hour Awake Supervision means caregivers are awake to supervise children continuously, 24 hours a day; children means children and youth under the age of 18.

Monitoring and Compliance

1. OCOK will review the Provider's Continuous 24-hour Awake Supervision policies and procedures during the initial contracting process.
2. OCOK will ensure there is a certificate of compliance for all DFPS legacy residential services providers.
3. OCOK will review the Provider's Continuous 24-hour Awake Supervision policies and procedures every six months to ensure the policies and procedures are up-to-date.

4. OCOK will review noncompliance incidents within 24 hours of being notified.
5. OCOK will request information about staff ratio and sample of 24-hour awake supervision schedule during the annual monitoring review process.

The non-emergency placement process is used when CPS makes a referral to OCOK for a child or youth who is in CPS conservatorship who is either in need of a non-emergency (non-immediate) paid placement and/or is being referred to OCOK for case management (see Non-paid Placement Procedure 5.08).

1. All placement recommendations take into consideration the best interest of each child including what is the least restrictive, most family-like setting; keeping siblings together; closest to home; and able to meet the child(ren)'s needs.

9. OCOK Intake Specialist will coordinate placement of the child with CPS and the Provider. OCOK Intake Specialist or designee will complete subsequent non-emergency placements. CPS will be responsible for new referral (initial) non-emergency placements.

Procedure:

Our Community Our Kids (OCOK) accepts referrals 24-hours a day, 7 days a week and conducts both planned and emergency placements. Referrals are directed to the Intake Department toll free at 844-777-6265 (OCOK). Information on how to access network services is available to the public on the OCOK website at www.oc-ok.org and provided to clients at the time of intake as well. OCOK has a “no-reject, no-eject” policy and all referrals are accepted for children who are legally from or the responsibility of the 3B catchment area and the intake worker will advise of all services available at that time. If a child or family that is not from the 3B catchment area and is the legal responsibility of another county in the state of Texas, is requiring placement or other courtesy services, OCOK will review to see if they meet the requirements for a courtesy referral (see Courtesy Referral 5.09) otherwise OCOK would refer back to TDFPS and their Central Placement Unit according to the region/county with legal responsibility. Any services not available at the time of intake are addressed through the care coordination process by the on-going assigned Care Coordinator or Permanency Specialist.

1. OCOK Intake Department will be responsible for ensuring that calls for placement are answered 24/7/365. Intake workers complete all triage and critical care decision-making of referrals promptly and in accordance with the type of referral being made. Intake staff are supervised by the Intake Supervisor who is experienced in residential childcare and/or licensed. All calls will be screened and assessed for priority (emergency or non-emergency) determination based on how quickly a placement is needed to ensure all children are treated equitably and in a manner that appropriately addresses their need for placement and timely initiation of services.
2. To ensure this occurs it will be necessary to have a rotating on-call schedule to cover any calls for emergency placement requests that may occur during non- traditional business hours.
3. A Primary Backup worker and a Secondary Backup worker are scheduled at all times.
4. The Intake Supervisor will be responsible for ensuring that the on-call schedule is developed and followed.
5. The OCOK Intake phone line is set up to ring first to office line then to the on-call worker, then Supervisor and so on up the chain of command.
6. If the Primary Backup worker is on a call when a second call for placement comes in that call will automatically be routed to the secondary on call phone. If the Secondary Backup worker is also on a call when a third call comes in that call will be automatically routed to the Intake Supervisor.
7. The Primary or Secondary On-Call worker will then be responsible for following the procedure to secure an emergency placement.
8. The On-Call worker will contact the Intake Supervisor or Director of Intake if any issues arise in which they require direction or assistance.

All placement recommendations take into consideration the best interest of each child including what is the least restrictive, most family-like setting; keeping siblings together; closest to home; and able to meet the child(ren)'s needs.
5. Once Intake has approval of the home from the Provider notification is to be sent to Permanency Specialist by telephone and email. Approval will be assumed if denial is not received within 1 hour. Procedure:

Occasionally, OCOK may need to initiate a non-emergency placement change. Non-emergency placements may need to be initiated based on a variety of reasons, all of which must be justified by OCOK Intake or Care Coordination and approved by Permanency.

1. OCOK Intake must provide notification to the Permanency Specialist or vice versa (via electronic mail) of the need for a non-emergency placement change within 30 days of needing placement. The requesting party must provide:
 - a. The reason for the placement change.
 Intake will provide worker needed for secondary assignment
2. Assignment of non-emergency placement requests will be assigned by the OCOK Intake Supervisor or designee to Intake Specialists on a rotating basis. The Supervisor will be responsible for tracking assignments and ensuring caseload equalization.
3. OCOK Intake Specialist assigned to each non-emergency placement change request will be responsible for each task, from referral to placement.
4. OCOK will coordinate and facilitate the placement staffing as outlined in Pre-Placement Staffing. This includes recording notes from the meeting's discussion on the Pre-placement Staffing Form and ensuring all participants receive a copy. (See Pre-placement Staffing Protocol - Foster Care Redesign Region 3b Manual)
5. OCOK Intake Specialist will enter all information regarding the child/youth into the CareMatch system which will generate the list of potential placements (See CareMatch user guide for instructions).
6. No less than 3 days prior to placement needing to occur, Intake will notify Permanency through a follow-up email of recommended placement and medical consent. All placement recommendations take into consideration the best interest of each child including what is the least restrictive, most family-like setting; keeping siblings together; closest to home; and able to meet the child(ren)'s needs. Permanency will have 24 hours to respond or placement will be considered accepted.

9. Within 12 hours of placement, OCOK Intake Specialist will complete documentation of Placement in IMPACT. This includes documenting the reason for placement decision and decision criteria in the Placement Narrative Summary.

10. OCOK Intake Specialist is also responsible for ensuring client information is entered into Care Match. If placement takes place during normal business hours it will be entered that business day. If placement occurs after hours the Intake Specialist is responsible for entering the data by 10:00 am the following day.

Documents	IMPACT User Guides		
Reference	Foster Care Redesign Region 3b Operations Manual, OCOK Provider Manual, myEvolv & CareMatch, COA NET 2.04		

Procedure:

During the beginning stages of implementation it is necessary for OCOK to transfer existing children/youth (referred to as “Legacy”) into the Provider Network. This is simply an administration change, not a physical change in placement for the child/youth.

1. On a pre-arranged schedule between OCOK and each Provider their children/youth will be transferred into the IMPACT, CareMatch and myEvolv network systems.
2. OCOK Sr. Director of Care Management will work with each Provider as well as representatives with CPS to ensure that transfers are made in the IMPACT system and that a secondary assignment is made to the appropriate OCOK Care Coordinator.
3. Upon completion of the referral in IMPACT the OCOK Care Coordinator will then enter the child/youth’s information into the CareMatch and myEvolv systems.
4. OCOK Care Coordinator will work with the Provider to get all State required documents completed and signed.
5. Within one (1) week of assignment the OCOK Care Coordinator will contact the Provider’s Case Manager and CPS caseworker to introduce themselves and begin communication about the next steps of care management.

Any updated procedures will be included on the OCOK Provider Manual.

Procedure:

In order to ensure children receive appropriate care and supervision and that caregivers are fully informed of all concerns regarding a child's history of sexual abuse, sexual aggression or sexual behavior problems the following will take place:

1. If a child has been sexually abused by an adult or another youth, OCOK will ensure all information about sexual abuse is reflected in the child's OCOK CSA History Form, and common application for placement.
2. All of the child's caregivers must be apprised of confirmed allegations of sexual abuse of the child at each present and subsequent placement.
3. OCOK will review DFPS's documentation in each child's records for all confirmed allegations of sexual abuse in which the child is the victim. OCOK will review all marked DFPS child's electronic case record documents "child sexual aggression" and "sexual behavior problem" through the profile characteristic option when a youth has sexually abused another child or is at high risk for perpetrating sexual assault.
4. If sexually aggressive behavior or sexual behavior problem is identified for a child, OCOK will also ensure the information is reflected in the child's OCOK CSA History Form, and common application for placement.
5. OCOK will review DFPS's documentation in each child's records all confirmed allegations of sexual abuse involving the child as the aggressor.
6. All of the child's caregivers must be apprised of confirmed allegations of sexual aggression of the child at each present and subsequent placement.

Upon receiving a referral for a child with a history of confirmed sexual abuse, aggression or behavior problems, OCOK Intake staff will review all child's history as it pertains to sexual abuse, sexual aggression or sexual behavior problems prior to a placement search. Information will be gathered from the DFPS caseworker that is requesting placement, as well as from the IMPACT system and the OCOK Intake staff will ensure the information is included in the common application.

OCOK Intake staff will ensure the information is also documented in the OCOK CSA History Form and provided to the Provider at the time of the placement search. The Provider will ensure the information is reviewed with the caregiver prior to placement. OCOK Intake staff will send the form to the DFPS caseworker that is requesting placement for verification and accuracy purposes and the signed form will need to be returned with the signed placement paperwork.

At the time of placement, OCOK Intake staff will review the confirmed sexual abuse, aggression and/or behavior problem history with the caregiver and ensure the caregiver acknowledges receipt of the

information and opportunity to ask any questions about the history prior to the completion of placement. Caregivers are required to sign off on the OCOK CSA History Form acknowledging receipt of the information.

5.08 Non-paid Placements

Effective	March 1, 2020	Revision Dates

Policy:

ACH Child and Family Services offers a continuum of care with service modalities and interventions that are individualized to each client based on the service plan or program service.

Procedure:

A non-paid placement is a placement that is not paid through regular foster care funding. Examples of non-paid placements include non-licensed kinship placements, adoptive placements, hospitalizations or other Medicaid funded placements, SIL placements, Home-based Community Services (HCS) placements, etc. Non-paid placements can overlap with paid placements (hospitalizations, incarcerations, etc.) or can occur independently of paid placement (adoptive placements, kinship placements, etc.).

Unlike paid placements, these placements are not managed through the normal intake process but rather are largely managed by the Permanency Specialist with a few exceptions.

Cases Handled by Intake

Initial Placements:

If a child is needing a non-paid placement at the time of initial removal, CPS will contact Intake for the normal referral process but notify the intake worker that a non-paid placement is being made. The CPS worker will be responsible for entering the placement information in IMPACT and providing the details of the placement to the OCOK specialist who will enter the information in CareMatch.

Subsequent Placements:

If a non-paid placement results in a placement disruption (i.e. a psychiatric hospitalization that ends with a 24 hour discharge) then the Permanency Specialist will be responsible for entering the placement in IMPACT and the non-paid placement information in CareMatch, however, the Intake Specialist will end the placements both in IMPACT and CareMatch prior to entering the next paid placement. If the subsequent placement is not a paid placement, the Permanency Specialist will be responsible for ending the placements in both systems.

SIL (Supervised Independent Living) Placements:

When a youth is entering into a SIL placement, the Permanency Specialist will make a referral to Intake and will notify the Intake Specialist once a SIL placement has been secured. The Intake Specialist will enter the SIL placement in CareMatch and the Permanency Specialist will enter the placement in IMPACT.

All other non-paid placements will be entered and/or ended by the Permanency Specialist in both CareMatch and IMPACT.

6. A relative or kinship family living in the 3B catchment area with children placed with them from outside the 3B catchment area (KIN).

Sending

When a child or family member who is the legal responsibility of OCOK moves outside of the catchment area and requires courtesy supervision or services, the OCOK Permanency Specialist will create a request using the Universal CVS/KIN/LPS/ADO Form and send to the [SSCC3b CVS KIN LPS ADO@oc-ok.org](mailto:SSCC3b_CVS_KIN_LPS_ADO@oc-ok.org) email box for routing to appropriate CPS region by the Resource Coordinator.

6.001 Care Coordination			
Domain	Care Management, ACH Client Rights and Responsibilities		
Effective	January 31, 2018	Revision Dates	1-2020
Documents			
Reference	OCOK Provider Manual		

Policy:

ACH Child and Family Services assure that all persons served or their designated legal representatives are informed of their rights and responsibilities arising from receipt of ACH Child and Family Services.

Procedure:

The Care Coordination team is comprised of Care Coordinators, Adoption Coordinators and Therapeutic Services Coordinators whose responsibilities include ensuring children receive quality, timely services that are individualized based on each child's needs. Both Care Coordination and Intake departments fall under the Director of Care Management.

Services provided to children include residential or placement services, adoption services, daycare services, Transitional Living Services, Preparation for Adult Living (PAL) services, and also includes over-site of service planning. Services are coordinated such that all eligibility information, both current and past, is maintained for the entire covered population in order to minimize administrative barriers to prompt service delivery. Client/case records are maintained by OCOK and follow that client from placement to placement in order to facilitate the maximum benefit and continuity of care.

The Care Coordination team is also responsible for ensuring utilization management is completed for each child and that children are provided with a choice of service providers whenever possible and can move easily between programs and levels of care as change or progress occurs. This includes ensuring that data related to appropriateness of admissions and authorization decisions, the intake and referral process, service planning and service delivery milestones as well as intake and discharge data are reviewed regularly and throughout the life of the case. The Director of Care Management completes reviews of intake and discharge data for length and number of placements including all subsequent and re-admissions.

OCOK ensures that all children will have a Service Plan that will focus on developing and reviewing plans to meet the individualized and unique needs of the child.

1. The child and youth Service Plan will be a collaborative and inclusive process between OCOK, the Network Provider, Caregivers/Foster Parents, and the child and family.
2. Service Planning will occur with all children under OCOK including new placements (children placed within OCOK network upon removal) and current placements (children currently placed in paid foster care who require a placement change into the OCOK Network/legacy transfer).
3. Child Service Plans will be developed and reviewed through Service Plan Meetings, and primary and concurrent permanency goals for the child will be reviewed.
4. OCOK will ensure all Initial and Subsequent Child Service Plan Meetings are scheduled and coordinated by the Network Provider within the specified timeframes.
 - a. New placements (new removals) within 30 days of removal.
 - b. Current placement (new to OCOK Network/legacy transfer) within 30 days of placement.
 - c. The Provider's case manager will ensure that the first two (2) Service Plan Reviews are scheduled and conducted within 90-days of the Initial Service Plan Meeting.
 - d. Child Service Plans will be updated or reviewed more frequently when a child's circumstances change or significant events occur that dramatically alter the child or youth's needs; OCOK will ensure that the Provider's case manager is aware of any Region 3b Jurisdictional differences for county-specific Child's Service Plan completion timeframes.
 - e. The Child Service Plan will be reviewed at the following intervals:

When CPS is named Temporary Managing Conservator (TMC) of a child, the following Child Service Plan Review timeframes are required:

Children who are receiving Standard Services (Basic & Moderate) as determined by OCOK:

1st review: within 90 days following the Initial Child Service Plan

2nd review: within 90 days following the 1st review

All other reviews: every 180 days following the 2nd review

Children who are receiving Therapeutic Services (Specialized and Intense, IPTP and Exceptional Care) as determined by OCOK:

- scheduling with participants a meeting date and time;
- reserving a conference room and/or scan call line;
- all relevant participants are invited to the meeting;
- coordination with OCOK and DFPS staff to ensure barriers to parent and/or family member participation are mitigated (i.e. transportation needs); and
- notice is provided to all participants of the Service Plan Meeting.

The Provider's case manager will send an email invitation for scheduled Service Plan Meetings to OCOK (Care Coordination and Permanency) and other relevant professionals.

OCOK will ensure the Network Providers notify all participants of the Child Service Plan Meeting 14 days prior to the meeting. OCOK will also ensure the Network Providers' case managers know how to contact parents and other family members.

Procedure:

OCOK will hold itself and Network Providers responsible for completing assessments using an inclusive model of care that is family-focused, strength-based, trauma-focused, and culturally respectful.

1. OCOK will ensure Network Provider's staff must complete the online CANS training and pass a test demonstrating competency in order to be certified to administer the CANS assessment tool. To maintain the CANS certification, staff must retrain and retest annually. It is the Provider's responsibility to ensure staff who administer the CANS maintain their certification annually. This will be monitored by the Quality Improvement and Contracts Specialist.
2. Assessments will drive service plan development and inform the appropriateness of placement and permanency goals.
3. OCOK will ensure the CANS will be completed within three (3) weeks following any placement (emergency or non-emergency) for all children aged three (3) years and older for all children removed after 9/1/16. If a child turns three (3) during a placement, the CANS assessment will need to be completed within thirty (30) days of the child's third birthday. If a child has a subsequent move in their first 21 days of care, the new placement provider will need to ensure a CANS is completed no later than the 30th day of care (30 days from legal removal), regardless of how long the child has been in their placement.
4. CANS assessments will need to be updated annually for all clients with a Standard Level of Care.
5. CANS assessments will need to be updated every ninety (90) days for all clients with a Therapeutic Level of Care.
6. CANS assessments are completed for all youth 18 years and older if they are still in an OCOK foster care/residential placement.
7. CANS assessments, if not being completed by a credentialed Superior Provider, must be reviewed and approved by the Network Provider's Case Manager Supervisor or Treatment Director.
8. OCOK is responsible for ensuring all providers in the SSCC network maintain appropriate qualifications including license/certifications for individuals assigned to complete child and family assessments.
9. OCOK will ensure each Assessment is conducted by a professional that has CANS Certification.

10. OCOK will ensure assessments of a child's service needs will be conducted prior to making a recommendation regarding placement for non-emergencies, in a timeframe allowing development of the service plan.
11. Care Coordination will be responsible for ensuring that CANS are completed timely, in accordance with both policy and law and that service plans address any areas of strength or need identified by the CANS assessment. Care Coordination will conduct a quarterly review of 10% of the CANS eligible population to ensure quality assurance, timeliness of completion and that appropriate service planning is conducted.

Any updated procedures will be included in the OCOK Provider Manual.

6.03 Discharge and Case Closure			
Domain	Care Management, Permanency, ACH Client Rights and Responsibilities		
Effective	July 01, 2014	Revision Dates	12-4-15, 1-2020
Documents	OCOK Residential Child-Care Disruption/Discharge Notice Form		
Reference	Foster Care Redesign Region 3b Operations Manual, OCOK Provider Manual		

Procedure:

OCOK considers a discharge successful when it is planned, to a less restrictive setting, or when reunification with the family occurs. Network Providers will be responsible for implementing many interventions to prevent unplanned disruptions. However, if a child is out of control, is a danger to his or herself or others, and cannot be helped through additional supervision and support in their current placement, the Network Provider will request a placement change through the Intake Department in compliance with their Provider Services Agreement.

Prior to requesting the removal of a child, the Provider case manager will be required to provide documentation defining efforts to maintain placement over the last 30-days as well as participate in the development and implementation of a transition plan appropriate to the child's best interests. Exceptions will be made in the case of an emergency.

By contractual agreement, the Providers will be expected to deliver foster parent support services to minimize placement disruptions, including contact (with child and caregiver) within one (1) business day and not to exceed 72-hours of any placement as well as on-going capacity for crisis support 24/7/365.

Children will not be placed in an enhanced substitute care setting without the approval of the OCOK Clinical team. Case related circumstances, which could result in placement disruption, will be considered prior to any placement outside the catchment area.

All Providers will be required to create a "Disruption Mitigation Process" to review and evaluate alternatives to potential disruptions. All crisis situations will be promptly responded 24/7/365 by the Provider. Providers will be expected to have a crisis response plan that will work quickly to de-escalate the crisis and quickly advance to an action plan to ensure the stability of the placement.

OCOK expects Network Providers to utilize the mobile crisis service of the Turning Point program prior to a hospital admission. The mobile crisis service can be accessed by calling (817) 909-1171. As appropriate; OCOK will support the Provider in convening support services to assure ongoing needs are dealt with.

When requesting a placement change the Provider case manager will complete the OCOK Residential Child-Care Disruption/Discharge Form and will forward it to the OCOK discharge email box (discharge@oc-ok.org). The form must be completed fully and sent to the OCOK discharge email box in order to be accepted timely. OCOK is tracking reasons for discharge and as such the provider is to identify on the form the top two (2) reasons why the child is being discharged. OCOK will ensure that DFPS has a copy for any children discharging from OCOK's Network. OCOK will meet the timeframes set in the OCOK Residential Child-Care Disruption/Discharge Form when a placement change, or discharge is requested. This form gives information that will assist with understanding the reasons for discharge and will provide recommendations for a future placement that will increase the child's opportunity to attain

a stable placement. In addition, the Provider case manager will notify OCOK when a child is discharged to any positive permanent placement.

OCOK may remove a child or request the agency to locate immediate respite whenever it has been determined to be in the best interest of the child due to allegations of neglect and abuse in the current placement. OCOK will be in contact with DFPS for any recommendations in the event there is an open investigation. In the event that an emergency discharge is not approved, the Provider will be responsible for finding respite should the OCOK Director of Care Management deem it necessary. It will be the Providers responsibility to utilize respite within their home agency or to locate respite with other agencies. The Provider will still be responsible for the child until officially discharged by OCOK.

Timeframes for discharge are detailed on the OCOK Residential Child-Care Disruption/Discharge Notice Form. All 14-day discharge requests are subject to approval from the Director of Care Management or their designee. If the 14-day discharge does not meet the requirements, then OCOK will notify the submitting agency that it has been denied and a 30-day Discharge Notice has been accepted in its place. Discharges will be effective beginning the date received by the OCOK discharge email box if appropriately filled out and submitted with the required documentation.

All 14-day Discharge Notices for children who are AWOL should be submitted within 24-hours of the child being absent. If the provider intends to take the child back, this must be indicated on the Discharge Notice. If the child returns within the 14 days, then the Discharge Notice will be automatically rescinded. If the child does not return within the 14 days OCOK will pay for bed for up to the 14 days unless an earlier discharge is negotiated. If the Provider does not intend to continue to care for the child past the 14th day, this will need to be indicated as “no” on the Discharge Notice when submitted. In this situation, if the child returns on or before the 14th day the child will be the responsibility of the CPA/GRO/RTC and for the remainder of the 14 day period. If the option to not continue for care was selected and the child did not return during the 14 day period, the Provider will not be paid period of time the child was gone and the placement end date will be the date of run. OCOK discharge email box (discharge@oc-ok.org) must be notified immediately upon a child’s return from AWOL. NOTE-ONLY if the Provider indicates the willingness to take the child back by checking the corresponding box on the discharge form, will the Provider be eligible for payment if the child does not return following the 14 days.

A 24-hour Discharge Notice can be complete for children admitted to the psychiatric hospital or when a child is detained and charged with a crime. Children who are picked up by the police and taken to the police station to be processed without being detained will not qualify for a 24-hour discharge. If a child is taken to a psychiatric hospital that does not accept Superior Health placement days, the provider will need to request a transfer to a hospital that does prior to your 24-hour discharge being approved. If the provider takes the child to a hospital that is not under contract with Superior Health or does not have a child specific contract with Superior Health for the hospital stay in question, the provider will be responsible for any payments incurred during the hospital stay not covered by Superior.

Documents	Adoption Referral Form		
Reference	Foster Care Redesign Region 3b Operations Manual, OCOK Provider Manual, ACH Child and Family Services Policy – Service Modalities and Interventions,		

Procedure:

OCOK will take the lead on all adoption related activities for children in Region 3b. OCOK will be responsible for a full range of adoption activities and event which requires the coordination and efforts of multiple departments and positions.

Child Services

Adoption Preparation

Adoption Prep activities are the responsibility of everyone involved in the case. The Adoption Care Coordinator will ensure that the Permanency team, Provider, Therapist, Attorney, CASA, caregiver, etc. are all informed of the adoption activities and working together to ensure adoption prep activities are being coordinated. Adoption prep includes discussions with the child or sibling group about the goal and plan of adoption, ensuring the child/ren have updated medical, psychological/developmental assessments as necessary and working through any barriers to ensure the child/ren are fully prepared to be adopted and/or consent to their adoption. Adoption Preparation should be done at the point that adoption of any kind is identified as a goal or concurrent goal. Although many tasks cannot be completed until termination is achieved and/or an appeal is completed, discussions and preparations with the child should begin early and be ongoing.

Types of Adoption

Relative/Kinship Adoption

For any child whose goal is relative/kinship adoption, the Kinship Family Specialist assigned to the relative caregiver will refer the family to an OCOK approved Provider agency with the ability to license adoptive families. Information on such agencies is tracked and maintained by the Community Relations Department. The Kinship Family Specialist will work with the relative to become licensed and advise the Permanency Specialist when the family has completed all verification/licensure activities as well as to any barriers to the process.

Unrelated – Foster to Adoption

For any child whose goal is unrelated adoption, that has an identified unrelated adoptive caregiver and is placed with this caregiver at the time of termination, the general Care Coordinator will remain assigned to the child. The Permanency Specialist will take the lead on and ensure all adoption activities are completed. (see below for more information)

Unrelated – Straight/Matched Adoption

For any child whose goal is unrelated adoption but does not have an identified adoptive caregiver at the time of termination or at the time of preparation for a termination trial, the Permanency Specialist will

refer to the Adoption Care Coordination department for recruitment and additional placement activities.

Recruitment

The ACC will be assigned to Permanency units and will meet with the unit on a monthly basis to track, identify and staff any children in need of recruitment or having ongoing recruitment efforts. The Adoption Care Coordinator will take the lead on most adoption recruitment activities. The Permanency Specialist will be responsible for completing the Adoption Recruitment referral including Adoption Broadcast form, HSEGH, TARE (or other recruitment platform) profile and an Adoption Recruitment Approved Photo. The Permanency Specialist will identify whether the recruitment is for a child/sibling group that is legally free for adoption (termination on all parents has been achieved and there is no pending appeal) or if the request is a legal-risk (termination is not achieved on all parents or there is a pending appeal). Recruitment of all types may be completed for a child or sibling group that is legally free for adoption. This includes broadcasts, website recruitment (TARE, AdoptUS Kids, A Family For Every Child, provider websites, etc.), match events, videos, etc. Legal-risk recruitment is far more limited and cannot include the image of the child/sibling group. Any legal-risk recruitment activities must be approved by the Adoption Care Coordination Supervisor. If a child is not appropriate for legal risk recruitment activities but still in need of a home, the child will be referred to Intake for a new placement. A broadcast will be completed first and prior to any other adoption activities unless otherwise agreed upon by Adoption CC and Permanency Supervisor. The ACC will work with the Permanency Specialist to complete any broadcast material and will submit the final documentation for production. ACC will coordinate with the Community Relations department on Adoption Match and recruitment events and will ensure the child/ren register and have transportation as necessary.

Any child who does have an identified adoption resource after 6 months of recruitment, or sooner at the discretion of the Permanency Supervisor, will be staffed with the Permanency and Adoption departments on a monthly basis for additional efforts (i.e. referral to Collaborative Family Engagement, specialize recruitment, case mining for relatives, etc.).

Home Studies

Our community our kids will ensure that home studies on all potential adoptive homes are conducted and approved. The Adoption Care Coordinator will review all potential home studies for any matched adoption.

Selection Staffing

The Adoption Care Coordinator will collect submitted home studies for each child available for adoption and will review and narrow down home studies in order to prepare for the selection staffing. ACC will send top 3-5 home studies to the Permanency Specialist and Supervisor to review prior to Selection Staffing. The Adoption Care Coordinator will coordinate and host a selection staffing including the Permanency Specialist and Supervisor, CASA, ad litem, guardian ad litem and others as appropriate within seven (7) business days of reviewing home studies. The Adoption Care Coordinator will notify the Permanency Specialist within one (1) business day of the recommendation determined by the selection staffing.

Presentation Staffing

OCOK will ensure a Presentation Staffing is held. The Adoption Care Coordinator will invite the following people to the presentation staffing:

Prospective family
Current family
CASA

Ad litem
Guardian ad litem
Permanency Specialist and Supervisor

The Adoption Care Coordinator will ensure that the prospective family is able to ask questions of the current family as well as any other members of the child's team. The ACC will facilitate a transition plan for the child into the adoptive home collaborating with the current and prospective family. The Adoption Care Coordinator will receive notice, no more than 1 day, no less than four (4) days from the provider if the family decides to move forward or not and ensure all parties are notified.

File Redaction

The Permanency Specialist or their designee is responsible for completing the redaction of the case file for adoption purposes. The redacted file must be provided to either the family (relative/kinship or unrelated foster to adopt) or the ACC (matched) no later than 15 business days following the Selection Staffing (matched). The ACC will ensure the file is given to the Provider agency for the matched family and returned if the family decided to decline placement.

Subsidy

The Permanency Specialist will ensure the adoption subsidy paperwork is completed by the potential adoptive family with the help of the Kinship Family Specialist or the Provider as necessary and will ensure an adoption LOC is completed by YFT prior to subsidy negotiation. The Permanency Specialist will submit all paperwork to the Adoption Subsidy Negotiators prior to the adoptive placement.

Placement

The Adoption Care Coordinator will ensure OCOK has an active approved contract with any agency (in or out of state) prior to placement. The Permanency Specialist will coordinate with the ACC on the transition for any matched adoptions. Should the matched adoption placement need to be made as a foster placement for any reason, this must be approved by the Director of Care Management prior to placement. If approved, the ACC will refer to Intake for background checks and placement entry. The Permanency Specialist will complete the ICPC 100 A and B for any out of state placements. The Permanency Specialist will complete the Adoptive Placement Agreement and will enter the placement in IMPACT and the CareMatch system.

Post-Placement

The Permanency Specialist will continue to monitor the child/ren following the adoptive placement and will ensure an adoptive Child Plan is completed. Adoption Care Coordinator will ensure that the Provider is managing the adoption services and the Permanency Specialist will receive monthly reports from the Provider. The Permanency Specialist will ensure the family is provided with information about Post-Adopt Services and is referred to the local provider as necessary.

Legal/Finalization

The Permanency Specialist will attend all court hearings and ensure the provider completes the adoption court report. The Permanency Specialist will consent to the adoption.

Policy:

ACH Child and Family Services has a utilization management process to ensure that its services are appropriate, individualized, and meet the needs and preferences of all its clients at the best value.

Procedure:

Utilization Management is a process that is continuous and includes the use of common criteria across the network for admission, service provided, length of service, level of care and discharge reasons. It is a flexible and responsive process that is individualized to meet the client's needs.

Initial Level of Care

During an initial placement search, OCOK intake staff will assign an initial Level of Care after review of the Care Match matching assessment along with the information provided by DFPS in the common application, removal affidavit, and any other available documentation.

For foster home placements, children are leveled using OCOK's three tier system; Standard (behavior that would meet the legacy criteria of Basic or Moderate), Therapeutic (behavior that would meet the legacy criteria of Specialized) and Therapeutic II (behavior that would meet the legacy criteria of Intense).

For RTC placements, children are leveled utilizing the same clinical criteria as DFPS for the four levels of the legacy system; Basic, Moderate, Specialized and Intense.

Intake Specialists utilize the OCOK Intake Decision Making Processes to determine when a shelter placement is needed and will be utilized. Shelters are utilized only while a search for the appropriate placement is continuing or during a period of time when an appropriate placement has been secured but placement cannot be made until a later date for various reasons. (i.e.: the best match placement that has been identified is unavailable for placement for a few days.)

For children needing IPTP services, OCOK is using the same criteria as the state for this 60-day program and these decisions are made by review of the OCOK Clinical Team. During that 60-day period, these children are reviewed by Youth For Tomorrow (YFT) and they are moved into the YFT determined level at the end of the time period.

Potential Exceptional Care placements are reviewed internally by the Director of Care Management and exception requests are presented to the state as determined in our joint protocols. Exceptional Care agreements, once approved by the state placement office, are reassessed every 90 days and submitted for re-approval as needed. During this time period, YFT is continuing their normal read schedules and current level determination is reviewed and considered for exceptional care extension requests.

Level of Care Following an Initial Placement

A child's initial placement and level of care determines the process for any subsequent level of care reviews. All specialized, intense and IPTP level children placed in an RTC are reviewed by Youth For Tomorrow quarterly to provide an objective utilization review regarding level of care. YFT uses the same clinical criteria as DFPS to determine all levels of care. All moderate level children placed in an RTC are reviewed by Youth For Tomorrow annually.

For children placed in a foster home, their initial level of care at placement will determine next steps. Children placed in the Standard level of care will remain at that level unless a Level of Care review is requested by the CPA due to concerns that the child may qualify for a higher level of care. When a review is requested, YFT is used to provide the review.

Children placed in the Therapeutic I or Therapeutic II level of care with child placing agencies receive the same level of care review as the children in RTCs. They are reviewed by YFT quarterly to provide an objective clinical opinion regarding level of care using the Specialized level of care clinical criteria for Therapeutic I and the Intense level of care clinical criteria for Therapeutic II also used by DFPS. CPAs may use the same appeals process outlined above if they disagree with the decision of YFT.

Children with Exceptional Care Rate agreements must continue to be read quarterly by YFT. The rate agreements will only be in effect for the time agreed upon and approved by Director of Care Management and it is the responsibility of the provider to monitor those agreements, follow all conditions and request any extensions as necessary. Extensions are not guaranteed and documentation and a new agreement of services is required for all extension requests.

Exceptions to the Quarterly YFT Reviews

1. Children who are being stepped down out of Residential Treatment Centers through our Step-Down Program, will be assessed and given a level of care as determined by OCOK. This determination must be made by OCOK and their collaborating partners as the appropriate level that will sustain a child in the community may not be the same level of care that supports them in residential treatment. Flexibility for increasing a level upon the transition from residential living to a community type setting such as a therapeutic foster home is critical to many children's successful adjustment, especially if they have been institutionalized by lengthy stays in residential treatment.
2. Children who have the following circumstances will be assessed by the OCOK Level of Care Committee instead of YFT to determine the next most appropriate level. Once placement is made, YFT will resume reading as per policy. Children who, as a result of one of the following, have not been read or could not be read by YFT's quarterly schedule:
 - a. Children being discharged from the hospital
 - b. Children being moved from a shelter

- c. Children being released from jail
- d. Children returning from run
- e. Children who have missed a review due to a placement move from one agency to another

Level of Care Appeals Process

If the Provider disagrees with a decision made by YFT on a level review, they may use the following Appeal Process.

Step 1: Request an Appeal Review from YFT. If after YFT completes the Appeal Review and the Provider continues to be dissatisfied with the decision, they may move to the second step in the Appeal Process.

Step 2: Send an Appeal Request to the Child's Care Coordinator for the OCOK Level of Care Committee to review YFT's decision. The decision of the OCOK Level of Care Committee after this review will be final.

Level of Care Waivers

For the following occasions, a level of care waiver may be granted so that a provider may be paid at a level higher than the level authorized by Youth for Tomorrow.

If the level of a child at an RTC is lowered by YFT to Moderate, then the provider can request the OCOK Level of Care committee that they be paid the Specialized level rate until a new placement can be found for the child.

A provider can request a higher level of care from the OCOK Level of Care committee before the provider's next YFT review, if it is deemed clinically necessary and supported by documentation.

OCOK Process for Setting up New Providers with YFT

When a new Provider joins the OCOK Network, the Quality Improvement and Contracts Department will inform the Provider of what to expect in terms of timeframes requirements. The OCOK Data Manager will notify YFT of the new Provider and get them on YFT's calendar for quarterly reads to begin.

Tracking and Monitoring

The OCOK Data Manager will track the timeliness of all children needing level of care reviews and the OCOK Quality Care Committee will review that data quarterly.

Level of Care Audit

OCOK Level of Care Committee will review a minimum of 10% sample of open and closed cases, including all Exceptional Care Agreements quarterly to ensure appropriate levels of care have been authorized by Intake staff.

Policy:

ACH Child and Family Services offers a continuum of care with service modalities and interventions that are individualized to each client based on the service plan or program service.

Procedure:

Professional Home-Based Care (PHBC) is a short-term, 9-12 months, 24-hour, intensive, family-based level of care which is a distinct level and care from Therapeutic I and II. PHBC is intended to be effective in moving children directly to permanency with family, biological parents or relatives while caring for some of the most challenging children in the foster care system.

Characteristics of Children Qualifying for PHBC

Children and adolescents served in PHBC will have one or more of the following characteristics;

- Multiple placements in various types of settings (i.e.; residential treatment, juvenile justice, psychiatric hospitals and foster homes).
- Extreme physical aggression that causes harm to others.
- Recurring major self-injurious actions to include serious suicide attempts.
- Other difficulties that present a critical risk of harm to self or others.
- Severely impaired reality testing, communication skills, cognitive abilities, affect or personal hygiene.
- History of abuse of alcohol, drugs or other conscious-altering substances whose characteristics include a primary diagnosis of substance dependency.
- Developmental or intellectual delays whose characteristics may include one or more of the characteristics above and/or the following: impairments so severe in conceptual, social, and practical adaptive skills that the child's ability to actively participate in the program is limited and requires constant one-to-one supervision for the safety of self or others, and a consistent inability to cooperate in self-care while requiring constant one-to-one supervision for the safety of self or others.
- Either the general population group or the developmentally or intellectually delayed group of children may have medical needs that will need to be addressed as well.

Characteristics of PHBC Families

- Be available to meet the needs of the child and respond to crises involving the child at all times. In order to achieve this at least one parent cannot work outside the home.
- Have no more than two (2) children who meet criteria for PHBC in the home. In some cases, three (3) children who meet or have met the criteria for PHBC will be allowed if one (1) child is ready for discharge.
- Not have a child under the age of three (3) years in the home.
- Limit the number of biological children. Any home with biological children living in the home must also have a written plan to ensure safety in the home. Additionally, the plan must address how the foster parent will be readily available and on-hand for any emergencies or immediate needs the child may experience.
- Demonstrate successful completion of a trauma-based training program specifically designed to increase their skills and capacity to work with children meeting the clinical criteria for PHBC services.
- Accept a child back into their home upon discharge from a psychiatric hospital. PHBC parents may NOT submit a 24-hour Discharge Notice if a child in their care is admitted into a psychiatric hospital.
- Demonstrate the capacity to show continuity of effort with children who may frequently run away and/or have admissions into psychiatric hospitals.
- Single parent families may become PHBC families. However, single parent families must have a written plan for additional support as needed. The plan must include the number of children allowed in the home to ensure effective treatment and safety.

Additional Requirements of Providers with PHBC Homes

- Be licensed to provide care for children qualifying for Intense level of care,
- Provide a proven; trauma-based, clinical training for PHBC parents. The intent of the training is to enhance the clinical capacity and expertise of the parents. Training for PHBC parents must be an evidence-based training, or a promising practice training or have all the key components of those trainings,
- Provide child-specific training to ensure that the specific needs of the child being placed with the parents are being met,
- Be able and willing to treat all clients regardless of their race, religion, gender, sexual orientation or gender identity,
- Provide three (3) days a month of Respite Care for PHBC parents.
- Limit the PHBC case manager case load to no more than eight (8) clients. Exceptions can be granted for a larger case load size with approved plan from the Provider outlining what case load size they are requesting and how they will enrich the oversight and support of their families and children.

- Conduct weekly face to face visits in the home.
- Provide an on-call crisis person available to their PHBC families; preferably someone who is a licensed clinician.
- Provide “planned vacancy period” from filling a vacant bed for at least two (2) weeks after successful discharge. OCOK and the Provider will reach an agreement on the amount of planned vacancy rate that will go to the Provider and the foster parents.
- Demonstrate the use of an operational Disruption Mitigation Plan.
- Provide wraparound services as part of their PHBC program. These services can be provided internally if the Provider is certified to provide those services or they can be provided through another certified Provider.

Assessments

Assessments – the following elements are required as part of the assessment process for the PHBC level of care. It is understood that all items below may not be done prior to placement. Items required prior to placement are to be designated. It is also understood that there will be times when a child meeting the criteria for PHBC, who is newly removed, may not have any of the required placement assessments. Those cases will be considered on a case by case basis.

- Psychological evaluation completed within one (1) year prior to consideration for admission (prior to placement),
- Psychiatric evaluation most up-to-date,
- Child and Adolescent Needs and Strengths Assessment (CANS) (prior to placement),
- Family Needs and Strengths Assessment (FNSA) for the biological parents, and
- Trauma Assessment.

Intake Process for PHBC Cases

1. Therapeutic Services Coordinators, OCOK Director of Care Management, OCOK Director of Therapeutic Services and Intake representative will meet at least once a month to review the children who meet initial placement criteria to identify and prioritize potential PHBC placements.
2. Emergency PHBC placements will be referred by the OCOK Intake and staffed with the OCOK Care Management Director and OCOK Director of Therapeutic Services.
3. CPA Providers will notify the PHBC mailbox once a new home is licensed. A PHBC Status Report will be sent each Friday to the PHBC mailbox. This will be reviewed by the OCOK Director of Therapeutic Services or designee each week.
4. A PHBC Matching Staffing will be coordinated by the OCOK Therapeutic Services Coordinator with the CPA(s) and OCOK. The OCOK Therapeutic Services Coordinator will gather information for the child to be shared at the staffing and determine who else should be invited to the staffing that is involved in the child’s case.

5. Once placement is approved, the OCOK Therapeutic Services Director will notify the Intake Department and the CPA of approval. The Intake Department will coordinate the placement per the Operations Manual for the general intake process.
6. A Pre-placement Staffing will then be scheduled by the OCOK Therapeutic Services Coordinator with the Treatment Team, including OCOK Intake staff to coordinate pre-placement visits and other placement details.
7. The CPA's will still be required to enter their families in CareMatch upon verification and update their preferences.

Responsibilities of OCOK Care Coordination in PHBC Cases

1. The OCOK Therapeutic Services Director or their designee will attend all Treatment Team Meetings for PHBC placements. The OCOK Therapeutic Services team's focus during the meetings is to monitor the Permanency and Discharge Plan, and to ensure that quality services are being provided as agreed upon. Service Plan Meetings will be conducted within 30 days of placement and then reviewed at least every 90 days thereafter. All service planning, notification, coordination, etc. must be conducted as outlined in Section 6.01 for all PHBC clients. The role of OCOK Therapeutic Services will be to provide oversight to the program at the individual child's level and ensure that permanency efforts are directed throughout the case.
2. The assigned OCOK Therapeutic Services Coordinator will be responsible for documenting the PHBC Treatment Team Staffing.
3. The assigned OCOK Therapeutic Services Coordinator will be responsible for keeping a list of contact information for all Treatment Team Members, including the on-call crisis number for the agency and make available to the team.
4. The assigned OCOK Therapeutic Services Coordinator will schedule additional staffing as needed regarding crisis situations, Serious Incident Reports or other concerns.
5. The assigned OCOK Therapeutic Services Coordinator will communicate any concerns regarding PHBC homes to the Provider's OCOK Quality and Contracts Specialist and the OCOK Community Relations Coordinator.

Utilization Management

PHBC is not long-term foster care. Lengths of stay should be expected to be nine (9) months to one (1) year. However, OCOK does understand that some children will require longer lengths of stay. Utilization Management (UM) reviews will be conducted by YFT every 90 days.

Policy:

ACH Child and Family Services offers a continuum of care with service modalities and interventions that are individualized to each client based on the service plan or program service.

Purpose:

It is expected that PHBC homes will operate with the understanding that they are making a commitment to a child for nine (9) months to one year, or until the child either reaches their planned permanency goal or the team agrees that a different type of placement becomes more appropriate for the child.

Foster Parents should be openly discussing any problems or concerns regarding the child's mental health or behavioral issues and seek assistance from their agency and the PHBC Treatment Team consisting at minimum of Foster Parent, CPA, CPS, OCOK Director of Therapeutic Services, OCOK Therapeutic Services Coordinator, CASA, Attorney, child's therapist, the child's parent(s)/identified long term caregiver and child as appropriate, and other identified providers or supports for the child to creatively solve problems and find interventions.

Therefore, discharges not initiated as a joint decision by the Treatment Team, but by the foster home/agency will undergo an Unplanned Discharge Review which will determine whether a home/agency will be allowed to continue as a PHBC home in the future with OCOK. PHBC homes are generally expected to provide a 30-day notice.

Procedure:

1. Discharge Notices are submitted to the discharge box at discharge@oc-ok.org. Included with the Discharge Notice the CPA should provide detailed information about how they have used their Disruption Mitigation Process and any other efforts that were made to prevent placement disruption.
2. Within two (2) business days of receiving a Discharge Notice, a Discharge Staffing will occur with the PHBC Treatment Team scheduled by the OCOK Therapeutic Services Coordinator. The reasons leading up to the discharge, the current and future needs of the child, and any safety concerns will be discussed.
3. The information gathered at the Discharge Staffing, and the information provided by the CPA in the Discharge Notice will be presented by the OCOK Therapeutic Services Coordinator and/or the OCOK Director of Therapeutic Services to the OCOK Clinical Team within five (5) business days of the discharge. The OCOK Clinical Team consists of the OCOK Director of Care Management, the OCOK Director of Therapeutic Services, the OCOK COO and the OCOK President. The OCOK Clinical Team may also gather additional information from other PHBC Treatment Team members as needed. The OCOK Clinical Team will evaluate and make a

recommendation to the OCOK COO. The OCOK COO or designee will make one of the three following determinations about the discharge:

- Approved without Stipulations - the foster home/agency did everything they reasonably could and despite those efforts, a placement disruption was warranted.
 - Approved with Stipulations - areas of concern are identified and training or quality improvement plan will be required prior to accepting another PHBC child from the home and/or agency.
 - Not Approved - the home and/or agency will not be allowed to take further PHBC placements.
4. The CPA will be notified of the OCOK Clinical Team's decision within ten (10) business days of the Discharge Notice.
 5. Upon notification of the determination made by the OCOK Clinical Team, if the agency/home decides to rescind their Discharge Notice, a staffing with the Treatment Team and one of the members of the OCOK Clinical Team that made the decision will be held to ensure that the placement is still viable.
 6. The foster home/agency may appeal the decision of the OCOK Clinical Team within three (3) business days of receipt by submitting a letter to the OCOK COO. The decision of the OCOK COO will be final.

6.23 Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Checkup

Effective	September 01, 2019	Revision Dates	12-28-19
Documents	TDFPS Form 2403, OCOK Quality Monitoring Tool		
Reference	OCOK Provider Manual, ACH Child and Family Services Policy – Service Modalities and Interventions, COA NET 5.03		

Procedure:

Following the initial removal and placement into DFPS conservatorship, children are required to complete three (3) medical/behavioral health exams, known as the 3 in 30. The three (3) medical/behavioral health exams consist of:

1. **3-day Medical Exam:** Within 3 business days children entering DFPS care must see a doctor to be checked for injuries or illnesses and get any treatments they need.
2. **Child and Adolescent Needs and Strengths (CANS) Assessment:** Within 21 days of placement children ages 3-17 must get a CANS Assessment. The CANS is an evaluation that helps understand the impact of trauma a child has been through, and how they are doing. CANS identifies services that may help the child, such as counseling, as well as existing strengths to build on, such as positive relationships.
3. **30-day Medical Exam - Texas Health Step Medical Checkup/Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Checkup:** Within 30 days of placement children must see a doctor for a complete EPSDT check-up with lab work.

Effective September 1, 2019 a penalty will be assessed to Network Providers for any Texas Health Step Medical Checkup/Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Checkup that is not completed as per the required timeframe.

The following procedure(s) will be implemented to track compliance of the EPSDT checkup (30-day Medical Exam):

Network Providers will be required to obtain documentation of the appointment that meets all of the criteria for a Texas Health Step Medical Checkup. They may use TDFPS Form 2403 or their own form of documentation provided all information for the EPSDT Checkup is included in the documentation form. Network Providers must submit the utilized form to the OCOK 3in30@oc-ok.org email box within 72 hours of the exam completion. An EPSDT checkup is considered complete only if the 30-day Medical Exam is completed within the specified timeframe and the complete documentation is received by OCOK verifying the exam's completion.

Once a month, a report of all children new to care will be generated by the OCOK Data Department and sent to the OCOK 3in30@oc-ok.org email box. The Care Management Administrative Assistant will monitor the email box and will reconcile the receipt of the appointment documentation with every child on the generated report from the Data Department and follow up with agencies that are not submitting forms timely.

The appointment documentation and all other submitted documents will be uploaded by OCOK Data Department into CareMatch.

The Network Provider will be required to maintain all medical documentation in the child's record. Quality Improvement and Contracts Department will sample client records during the Provider's annual Contract Monitoring Review as per the OCOK Case Review System as an additional review of each provider's performance on the EPSDT requirement

The Intake Department will remind Network Providers, at the time of the initial placement and in writing via language included on the confirmation email, of the 3 in 30 requirements. Additionally, Care Coordination Department will include requirements of 3 in 30 in their standard introductory emails to Provider's case managers upon new assignments and in their away messages.

Effective September 1, 2019 OCOK will report compliance on a quarterly basis to DFPS. The Director of Care Management will also provide the report to the Director of Finance, the Director of Quality Improvement and Contracts, and the Chief Operating Officer.

Prior to submission of the report to DFPS, OCOK will notify the Network Providers of all instances of non-compliance and the intent to assess a financial penalty.

Should the Network Provider want to appeal any financial penalty they must contact the OCOK Director of Care Management within ten (10) business days of receipt of the notification. The Network Provider must submit all documentation supporting their case for appeal, including any efforts made to attempt to complete the required exams, along with reason(s) why the Network Provider should not be held responsible for the non-compliance for review by the Director of Care Management.

Failure to comply with this procedure for the EPSDT checkup, the Network Provider will be assessed a financial penalty of \$100.00 per child. This financial penalty will be withheld from the Provider's next payment from OCOK.

Progressive Remedies Assessed

Network Providers must improve performance quarter over quarter for completing EPSDT's at a 90% completion rate or above. If Network Provider's performance does not progressively improve quarter over quarter to at least or above 90% completion rate then the agency will be assessed a financial penalty of \$150.00 per missed EPSDT for that reported quarter.

If a Network Provider continues to perform below the 90% minimum benchmark completion rate in the next quarter, the financial penalty will be increased to \$200.00 per missed EPDST and will remain there until the next quarter the Network Provider is at or above the 90% completion rate.

6.24 Exceptional Care			
Domain	Care Management, ACH Client Rights and Responsibilities		
Effective	January 24, 2020	Revision Dates	
Documents			
Reference	OCOK Provider Manual		

Procedure:

Exceptional Care is any rate that exceeds the OC-OK level system.

Placements. A child may qualify for an Exceptional Care rate if all placement options have been exhausted and there are no other possibilities available. The rate must be approved by the Director of Care Management or their designee.

Potential Exceptional Care placements are reviewed internally by the Director of Care Management or their designee. When placing a child at the Exceptional Care rate into a foster home, the CPA must provide the home study and a service agreement for the foster parent(s) that are interested in accepting placement. A conference call must be held before the placement occurs, including the Intake Specialist, Intake Supervisor, the CPA, the foster parent(s), and the Permanency Specialist to discuss the service terms that the home and CPA will be providing with the additional rate and determine whether the home can meet the needs of the child. When placing a child at the exceptional care rate into an RTC/GRO, the facility must provide service agreements in writing to be approved by OCOK. The exception requests are presented to the DFPS State Office as determined in our joint protocols. Exceptional Care agreements, once approved by the DFPS state placement office, are reassessed at the agreed upon time-frame but no later than 90 days and submitted for re-approval only upon the CPA/RTC/GRO's request.

Below are the minimum requirements to provide Exceptional Care services. Depending on the rate agreed upon, the services may require more than the following:

- The facility must provide 24- hour crisis response.
- The facility must visit the home at a minimum once every other week. OCOK may request additional face to face or phone contact from the facility to the home depending on the behaviors of the child or the dynamics of the home.
- A one parent home must have a minimum of one Alternative Care Provider identified and approved then added to the service agreement.
- The agency must have a minimum of one respite option in case of an emergency.
- The service agreement must always be followed.
- Additional training may be required for the foster parent.

OCOK reserves the right to request the agency or home provide additional services prior to approving the Exceptional Care rate.

Placements at the Exceptional Care rate will not qualify for a 24-hour Discharge Notice. The agency must request a discharge staffing through the Care Coordinator or Therapeutic Services Coordinator. Upon submitting a discharge notice, the home/facility that is discharging the child will undergo a review with

OCOK to determine if the home/facility will continue to be utilized as options for children at an Exceptional Care rate.

Documents	SSCC Provider Services Agreement – Rates Addendums, Provider Invoice, Payment Report		
Reference	OCOK Provider Manual, COA NET 2.03		

Procedure:

Our Community Our Kids (OCOK) pays Network Providers (Providers) based on the placement, level of care and service event information that is entered in the myEvolv system. The pay rates are based on the fee schedule included in the Provider Services Agreement and/or appropriate Addendum. These payments include, but are not limited to, the daily rates and fees for foster care, exceptional foster care, supervised independent living, preparation for adult living, adoption services and family services.

On the first business day of the month, the Data Management staff begin the data integrity review process by comparing the placement data for the previous months between the placement system, the data management system (myEvolv) and the state's system, IMPACT, to ensure data accuracy. Any data discrepancies identified during the review are researched, resolved and the correction is made in the appropriate system.

Upon completion of the data integrity review, the Accounting Manager will create the provider invoices in myEvolv. A payment report is then created in myEvolv in order to review the unpaid provider invoices for accuracy and ensure compliance with all provider payment agreements. Any identified errors are researched and corrected in the myEvolv system. A new payment report is then created in myEvolv. The payment report shows the provider agency name, children's and/or family members' names, myEvolv ID numbers, levels of care, dates of service and the services that were provided. The report will calculate the number of units of service and will apply the appropriate rate in order to calculate the payment to the provider.

Once the final payment report has been reviewed and approved by the Director of Finance, the Accounting Manager will create the NACHA file in myEvolv. All providers will be paid electronically by direct deposit. The NACHA file and payment report are sent to the Director of Accounting in order to initiate the payments to the Providers' bank accounts by electronic funds transfer (EFT)/direct deposit. OCOK is required by the Provider Services Agreement to pay all subcontractor providers no later than the 25th day of each month. However, OCOK makes every effort to make the payments as soon as possible after the end of the month.

Once the payments to the Providers have been completed, the Data Manager will create a payment upload file. The Accounting Manager will send the payment upload file to the Director of Accounting in order to upload the payments to the accounting system, Abila.

A copy of the payment report will be sent to the OCOK Chief Operating Officer and Director of Care Management for review. The frequency, timing and method of payment of the monthly provider payments are communicated to the Provider Network in their Provider Services Agreement and also the OCOK Provider Manual.

7.03 Payment Reports for Network Providers

Effective	January 26, 2018 DFPS Confirmed 1/16/2020	Revision Dates	12-23-19
Documents	Payment Report		
Reference	OCOK Provider Manual, COA NET 2.03		

Procedure:

Upon sending the monthly payment to the Network Providers, an Accountant will create a payment report for each provider showing the details of the Provider's direct deposit payment. The payment report shows the provider agency name, children's and/or family members' names, myEvolv ID numbers, levels of care, dates of services and the services that were provided. These payment reports are electronically stored with the providers records on the OCOK network drive.

OCOK has created a file on the website, box.com, for each active provider that is receiving payments. The payment report for each Provider is uploaded to their file on the website, box.com, within two business days of paying the Network Providers. Once uploaded, each Provider will be able to login to their file on box.com and download the payment report.

In order to setup a Provider's file on box.com, the Director of Finance or Accounting Manager has the ability to create the file when the Provider's first payment has been created by the myEvolv system. When the first payment is made, the Director of Finance or Accounting Manager will contact the person that the provider has designated as their point of contact for their OCOK contract and request the name and contact information for a billing/payment contact person. Once received, the staff will be given access to their organization's file on box.com with viewer/uploader status. The staff will be able to download and upload documents when needed. At any time, a Provider can contact the Director of Finance or Accounting Manager to change the staff that have access to their file on box.com.

This procedure is communicated to the Network Providers in the Finance and Billing Procedures section of the OCOK Provider Manual.

Reference	SSCC Master Contract, OCOK Provider Manual, COA NET 2.03, 2.04		

Procedure:

The Provider will reconcile the payment from OCOK to the Provider's records. If any discrepancies are noted, the Provider will initiate the following dispute resolution process within 30 days of receiving payment. The Dispute Resolution Process is stated in Section 5 of the Provider Services Agreement.

The parties will confer, in person or by telephone conference, to resolve disputes over payment for services through the following process. In order to initiate this process, either party must provide the other party with written notice of its dispute about a service and/or payment issue.

Staff Conferencing - With ten (10) days of receipt of a written notice initiating the Dispute Resolution Process, OCOK and Provider, through representatives of their services and financial staff, will confer and attempt to reconcile any disputed payments for which OCOK –based upon a good faith review of any documents submitted by the Provider and OCOK's own documentation or records – does not believe it is responsible for paying. The parties shall complete the staff conferencing process described in this section within 30 days of the receipt of the written notice initiating the dispute resolution process. If the dispute is not resolved within this time period, the process will continue to CFO Conferencing.

CFO Conferencing - For services still in dispute following the staff conferencing reconciliation process, OCOK's Chief Financial Officer and the Provider's Chief Financial Officer, or their designees, shall confer to resolve, settle, or compromise the dispute. Payment after Resolving Disputes - If OCOK after conferring as provided herein with the Provider about the disputed payment concludes it is responsible for paying for a service or some part of it, OCOK shall make its payment to the Provider by the 15th day of the calendar month following the month in which OCOK concluded it was liable for payment.

In the event the Provider owes OCOK for any services provided herein or pursuant to any other agreement between the parties, and such balance has been due for in excess of 60 days from invoicing by OCOK to the Provider, OCOK may deduct the balance amount due to OCOK from any amount owed to the provider pursuant to this Agreement.

Compliance with the Master Contract - OCOK shall take all action reasonable and necessary to comply with the requirements of the Master Contract and ensure payment for the Services thereunder.

In the event that the Provider or its independent auditor discovers that an overpayment has been made by OCOK, the Provider shall repay said overpayment immediately to OCOK without prior notification or request from OCOK. In the event that OCOK first discovers an overpayment has been made to the Provider, OCOK shall notify the Provider by letter of such a finding and request repayment forthwith. OCOK may unilaterally deduct overpayments made to the Provider from monies owed to the Provider.

7.11 Network Provider Monitoring – Minimum Pass Through Rate Compliance

Documents	SSCC Master Contract - Exhibit A, Section 3.06(B); First Addendum to SSCC Provider Services Agreement; Rate Addendums, OCOK Minimum Pass Through Rate Monitoring Tool		
Reference	OCOK Provider Manual, COA NET 2.03		

Procedure:

OCOK monitors its Child Placing Agency Subcontractor Providers (Providers) for compliance with the minimum pass through rate, which is required by the SSCC Master Contract and also the Provider Services Agreement. This annual monitoring is performed by the OCOK Director of Finance.

Annually, one month is randomly selected for monitoring. A Provider payment report by Provider and by client is created in the myEvolv system for the selected month. 10% of each Provider's placements or 2 placements, whichever is greater, are randomly selected for the pass-through payment monitoring. Once the sample of placements has been created, each Provider is contacted with the list of randomly selected foster homes. For the selected month, we request that the Providers send us the calculation of the foster parents' payment and also proof that the foster parents received the payment.

Once the Providers have complied with our request, we use the OCOK Minimum Pass Through Rate Monitoring Tool to evaluate each foster parent's payment, and to verify that all Child Placing Agency Providers have complied with the minimum pass through rate requirement. If we determine that a foster parent has been paid incorrectly, the issue is presented to the billing contact of the Provider and proof of a corrected payment to the foster parent is requested and required. If a Provider fails to comply with the request for the foster parent payment information and/or fails to comply with the minimum pass through rate requirement, it is reported to the OCOK Chief Operating Officer in order to pursue a remedy with the Provider.

This information is communicated to the Network Providers in the Finance and Billing Procedures section of the OCOK Provider Manual.
